

CROWN CORNER BOARD

Comes from corner pieces cut at different angles.

It achieves a circular protection on round surfaces.

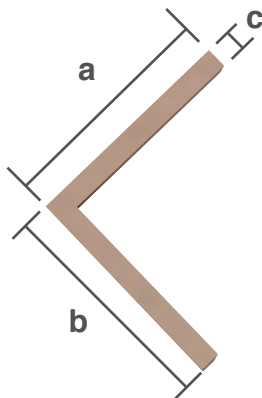

The crown is made from laminated cardboard corner piece with precise die-cutting at different angles, so that it fits perfectly to achieve an angular and circular protection.

It is ideal for circumferences, inside and outside of bobbins and rollers.

Useful in the manufacture of the structure of cardboard displays.

Benefits of using crowns:

- Edge protection
- Protection against strap damage
- 100% recyclable product
- Flexibility for different uses
- Equipment and furniture protection
