

HONEYCOMB

**Board that works as a weight diffuser,
with high resistance and load capacity.**

The Honeycomb, due to its structure and combination of materials, such as liners and paper grid in hexagonal shape (core), creates a surface that provides a high load resistance uniformly distributed.

·It replaces plastic and wood, making it a 100% sustainable and environmentally friendly product.

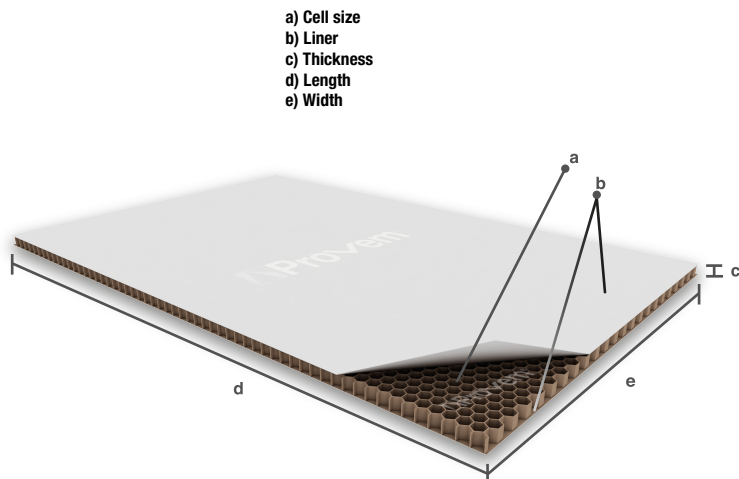

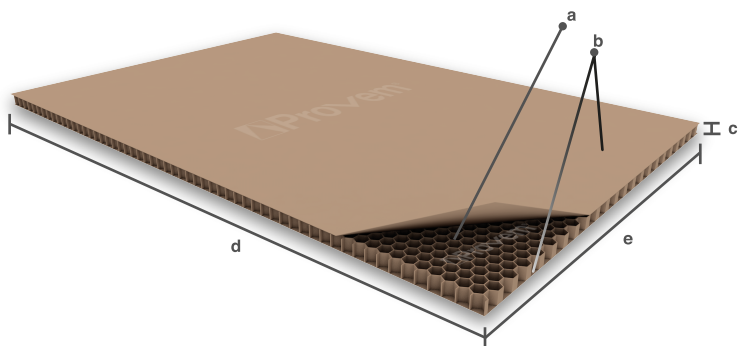

We have two types of boards:

Generic: Boards with standard sizes according to the market.

Specific: Boards that are tailor-made, according to the client's needs.

Benefits of using honeycomb:

- Light and manageable material
- Resistance and load capacity
- 100% recyclable product
- Versatile
- Cushioning
- Tailor-made solution
- Lower cost, higher performance

Specifications

The honeycomb is based on the following dimensions:

Honeycomb kraft

Cell size	1/2"	5/8"		3/4"		1"
Thickness	1/2"	3/4"	1"	1.5"	2"	3"
Facing	160 grs.			300 grs.		

Honeycomb maxx

Cell size	3/8"	1/2"
Thickness	3/8"	1/2"
Facing	432 grs.	

Finishes

- Kraft
- White

Provem® products are made from 100% recycled fibers

Uses and applications in various sectors such as:

E-commerce

Food and beverage

Distribution centers

Automotive

Pharmaceutical

Agricultural

Home Appliances

Health and beauty

POP Merchandising
